THANK YOU

- All Warm Springs staff that helped put together the Science Alliance Week.
- All Scientists that took time out of their busy schedule to pass on their love of science to students of today and the citizens of tomorrow.
- Bill James, Daryl Oster, Jason Silva- Understanding that kids are the future for change in this world and for all of the time he has devoted to share his passion for innovations that will help everyone.
- And especially Mr. Nelson for allowing me to dream

Warm Springs Science Alliance Week

MARCH 26 – 30,
2012

WHAT IS SCIENCE ALLIANCE?

This is a culmination of year long activities from which the focus of this is to encourage long standing relations between industry, higher education/research, parents and students. The focus of this event is to dialogue about the importance of current science and technology in society and to implement this into the curriculum that exists to prepare students for future jobs in the changing work environment. Our focus is on clean technology and sustainability, with an emphasis on innovation.
